MVP
- got it, it works with
96% accuracy

Validation
- ...it works. We did Eigen,
Fisher, and average gaits,
and took Fisher which
works the best.

Next Steps
- collect punchline graphs
- re-test people
- live ID script
- make a presentation
- make a website
for WalkLock

Major Concerns
- website, ew. All ergens
to front-end dev
- next-day data may
not work at all
